

How to Get Your IRS Economic Impact Payment

(Updated 10/13/20)

Economic Impact Statements of Up to \$1200 for individuals, and \$500 for dependent children under 17

If you filed taxes for 2018 or 2019, you will get your payment—including for your children—automatically.

- Eligibility will be based on your income and dependents listed on that tax return
- Payment will be made automatically to the bank account listed on your most recent tax return
 - **If that bank account is now closed, update your bank account information on the IRS website**
- If you filed for 2018 and have not yet filed for 2019, file for 2019 right away with your current bank account information
- If you already filed for 2019, you cannot update the bank account information. The IRS will mail you a check or a pre-paid Debit Card.

If you did not file taxes for 2018 or 2019 but you get Social Security payments (retirement, survivors, SSDI, SSI) OR you receive Compensation and Pension (C&P) from the V.A., you should have received your payment automatically in your bank account.

- If you have **not** yet received your Payment, you have until **November 21, 2020** to enter your information at the IRS website.
- If you receive SSI or C&P and you have children under 17, you needed go to the IRS website before **November 21, 2020** to register to receive the additional \$500 for dependent children. Otherwise, you may claim the \$500 per child on your 2020 tax return.
- If you receive your monthly benefit on a Direct Express Card, your check will be mailed to you **UNLESS** you registered your bank account information with the IRS.
